

Drumming

Drumkit Notation

There are different recommended standards for drum notation: PAS, Sibelius software, every drum magazine seems to have their own version. I am going to use the notation defined below as I think it works for my kit set up.

My favoured drumkit set up features:

- Metalware
  - Hi hat
  - Ride cymbal
  - Crash cymbal
  - China cymbal
  - Splash cymbal
- Drums
  - Bass drum with double pedal
  - Snare
  - 4 toms - two mounted on a rack, two on the floor.
